

LBGTQ Cultural Awareness

Presented by Leah Rothschild, BFA

FRIDAY 8 : 3 0 -
MARCH 23 1 2 : 0 0
2 0 1 8 WILLINGWAY

311 Jones Mill Road • Statesboro, GA 30458

OBJECTIVES

Although we commonly say LBGT or LBGTQ, these are actually the short acronyms for a much larger inclusion of sexual orientations and gender identities that are present within the LBGTQ community. This presentation will review the entire rainbow as well as the WHYS behind the increase of risk for addiction and mental health issues among this demographic of clients. This workshop will also help participants to understand some of the “what to say and what not to say” especially when it comes to being an ally to transgender individuals. Additionally we will delve into competencies of clinical work with individuals within the LBGTQ community.

- Identify multi facets of sexual and gender identity that encompasses LBGTQ communities
- Identify clinical issues surrounding rates of addiction and mental health issues for LBGTQ clients
- Provide Q&A opportunities for clinicians regarding what it looks like to be an ally and provide clinical safety for LBGTQ clients

COST TO ATTEND

\$35

Early Registration

\$45

After March 17th

3 CEs Applied
