PSYCHODRAMA101:

Warm-Up / Action / Sharing

This is an engaging workshop for clinicians to gain knowledge about Psychodrama, a group method of psychotherapy utilizing action methods. Together, we will explore the triadic system of Psychodrama which is warm-up, action, and sharing. This modality allows the therapist to facilitate clients beyond traditional talk therapy into a deeper exploration of issues and / or themes presented for therapy and seek to find new and adequate solutions to old problems or adequate solutions to new ones.
